FROM THE PRINCIPAL

28th July, 2016 Edition 8

Last Friday we implemented a new “Good Behaviour Management Plan” in the Secondary School! It is not really new, it is basically the same as the system implemented in the Primary School earlier this year.

Students start on Green level and hopefully move up levels as their good behaviour and lack of warning cards is acknowledged, each five weeks of staying on the same level means you move up a level. Or, sadly, if students receive 3 red warning tickets for minor infringements in a two week period they drop a level. There are also major infringements which mean an automatic drop in level to “Yellow” then “Orange” and “Red” etc... After dropping a level if a student goes 5 days without a warning ticket they go back up! So it is easier to go up then down! Which I think is an encouraging thing.

Thankfully just about all our secondary students have made it through the first week without a warning ticket and will quickly move up to the top level by the end of this year. We will acknowledge their good behaviour at speech night.

Sadly there have been four secondary students who have dropped a level and five other students who have received warning tickets.

One important aspect of behaviour is involved in all four major incidents that have led to a level drop, namely rude comments or names directed at other students.

Such behaviour is recognised as a major incident because our words and how we treat others is one of the most important ingredients in making a good school, home, workplace etc...

Continued over page....
Student were given lots of warnings about how they treat others as the new system was rolled out. Students have been reminded to say nothing rather than something negative and that even if they do not start an incident they will be held responsible for the manner in which they respond.

Our school will not accept offensive behaviour or language directed at others. This also goes for interactions between our students online! Parents must realise that if our students are directing bad language and offensive sentiments to other students using social media the school will take the disciplinary action outlined in our policy. Once you are an adult it is a criminal offence to harass someone online.

I am praying that students involved in the behaviours mentioned above will apologise for their behaviour and participate wholeheartedly in developing positive interactions with others. Early signs are good and may our students move ever upwards in their standard of behaviour and the levels of our “Good Behaviour Management Plan.”

On July 26, a contingent of intrepid students from Year 9 & 10 enlisted for an excursion to the MECC. At 1100 hours they embarked upon their mission to see and learn about World War 1 history at the *Spirit of ANZAC Centenary Experience*. It was an eye and ear-opening experience, as students journeyed through the interactive exhibits. The exhibition included interactive narration describing some of the key events of the war and the students were able to see real artefacts from the Great War, including the last shell fired at Gallipoli. At 1330 hours, their tour of duty completed, the brave students returned with a much greater understanding of what both soldiers and civilians endured through the war, and what our freedom cost our forebears a hundred years ago.
This Friday night 29th July is our First MESH for Term 3. We look forward to sharing this time with you all. Open for Grades 5 and up. Be sure to invite your friends along. NEXT MESH FRIDAY 2ND SEPTEMBER!!

In April 2001, in the midst of Israeli/Arab conflict, a motorcade carrying the Security Service Chief of Gaza came under bullet fire from Israeli troops. The frightened security official called Yasir Arafat from his car for help. Arafat, in turn called the U.S. Ambassador, who then called the U.S. Secretary of State, Colin Powell. Colin Powell then phoned Ariel Sharon, the Israeli prime minister, who ordered the shooting to stop immediately. And it did. The Security Chief’s connections eventually saved his life.

In a similar way, we have a divine connection to the ultimate power of the universe that can make a world of difference in any situation - PRAYER. Yet many of us do not tap into this amazing power. We struggle along with difficulties when we could have divine help. Many of us are natural worries and we get anxious over the many uncontrollable things that take place in our lives. Philippians 4:6 gives us an antidote for that.

Don’t worry about anything; instead, pray about everything. Tell God what you need, and thank him for all he has done. Then you will experience God’s peace, which exceeds anything we can understand. His peace will guard your hearts and minds as you live in Christ Jesus.

So, why worry and fret when we can pray? Remember that “Prayer is the opening of the heart to God as to a friend. It is the key in the hands of faith to unlock heaven’s storehouse where the unlimited resources of all-powerfulness are stockpiled.

While kayaking in southern England off the island of Wight, Mark Ashton-Smith, a 33-year-old lecturer at Cambridge University, capsized in treacherous waters. Clinging to his craft and reaching for his mobile phone, Ashton-Smith’s first inclination was to call his father. It didn’t matter to the desperate son that his dad, Alan Pimm-Smith, was at work training British troops in Dubai 3,500 miles away. Without delay, the father relayed his son’s mayday to the Coast Guard installation nearest to his son’s location. Ironically, it was less than a mile away. Within 12 minutes, a helicopter retrieved the grateful Ashton-Smith.

Like this kayaker, when we are in need, our first impulse should be to call our Father God - the one we can trust to help us. He is always just a prayer away. So why not pray today?
