Pichachu, Pokedex, animae, Pokemon. If you don’t know what any of that means you are as out of touch as me!
Pokemon Go is the latest craze for smartphone users both on Apple and Android. It is the latest and one of the most successful video game franchises from Japan’s Nintendo’s arsenal and was released in selected countries during July this year. Already there have been over 100 million downloads of the app.
The aim of the game is to catch as many of the 150 animal-like creatures (called Pokemon), as you can and train them to be as strong as possible. This craze has gone viral and we have all seen on the news some of the dramas it is creating.
We each have a choice to make about how we will use our time, parents (serious ones) have another choice, how they will regulate and train their children’s use of time? Regardless of whether they are inherently harmful there will always be a myriad of options available to chew up our time.
If we are to follow God’s counsel we will choose to use out time for the best. We need to capture the interests and advancement of our children, not Pokemon. Forget training cartoon animals, we need to train our children in the way they should go, and God promises that they will not depart from that. Our children need to be taught to respect their parents’ wishes, rules and plans so that these children will have long and happy lives. And of course we need to be deserving of our children’s respect, not treating them in a way that encourages defiance and disrespectful behaviour.
I am proud of the example our teachers set for your children in their role as “school parents.” Often as teachers we spend more face to face time with children then their parents do. We pray each day for God’s wisdom, patience and strength to do our best for your children. And God has promised that if we ask He will provide. In staff meeting time at the beginning of each day we pray a blessing for our students individually and their families. I pray that we will, as teachers and parents, choose the best for our children even when this involves tough and unpopular choices.
